

AADHAVAN SURIYAKUMARAN

SOFTWARE ENGINEER

+94 75 067 0982

lamaathavan07@gmail.com

Jaffna, Sri Lanka

ABOUT ME

Software Engineering undergraduate with hands-on experience in full-stack development and AI-based applications, combined with a strong interest in UI/UX design and user-centered solutions. Built multiple real-world projects including an AI-powered attendance system and academic chatbot. Brings additional experience in freelance video editing and tutoring, showcasing strong communication, creativity, and problem-solving skills. Seeking a UI/UX or Software Engineering Internship to contribute to impactful products while sharpening technical and design expertise.

Feb 2024 – Aug 2024

Self-Employed

- Taught fundamental IT and programming concepts to students.
- Simplified complex topics, improving student understanding and performance.

PROJECTS

AI FACE RECOGNITION ATTENDANCE SYSTEM

Tech: JavaScript, OpenCV, HTML, CSS

- Developed an AI-powered face recognition attendance system to automate and streamline student attendance tracking with high accuracy.
- Implemented computer vision techniques for real-time face detection and recognition, reducing manual errors and proxy attendance.
- Built a user-friendly interface for both admin and users to monitor attendance, view reports, and track performance.

AI CHATBOT – VIRTUAL TUTOR FOR SLIATE STUDENTS

Tech: Python, React, Node.js, MongoDB

- Developed an intelligent academic chatbot capable of delivering instant, subject-specific explanations to enhance student learning.
- Engineered robust backend APIs to efficiently handle user queries and generate accurate, real-time responses.

FITNESS TRACKING MOBILE APPLICATION

Tech: Android Studio, Java/Kotlin

- Developed a mobile app to track steps, calories, and workout routines.
- Focused on user-friendly UI design to enhance usability and engagement.
- Delivered real-time progress insights for better user motivation.
